

B.A. Economics Programme Outcome

Keeping in line with the Vision and Mission of the College, the B.A. Programme's defined objectives are to:

- provide an in-depth knowledge in Economic Theory and give an exposure to real world applications.
- provide training in quantitative tools and core students to enable the students to pursue higher studies in researched based institutions.
- equip the students for placements in industries.
- shape the students into socially responsible and socially sensitive citizens.
- motivate students to appear for civil services and competitive examinations.
- prepare students for SLET and UGC NET examination

By including job oriented papers in the curriculum and by offering more quantitative techniques papers, the department's objectives of equipping students for campus placements and for pursuing higher studies in research based institutions are satisfied. By involving the students in extension activities through the Lions International Campus clubs, the objective of making students socially sensitive and responsible is also met. Learning outcomes are consistently monitored through series of one hour tests and through mid-term exams, and seminars and assignments and by tracking the number of students pursuing higher studies in premier institutions and in University departments. The course content of the programmes are tuned to meet these objectives through informal feedbacks from current students and experts. After getting feedback and a need based assessment, constructive suggestions are incorporated in the syllabi. This ensures that the programme objective of providing quality education is met.

The IQAC of the college also assesses the overall performance of each department through an internal audit conducted at periodic intervals all through the year. The under graduate course in Economics (B.A.) has been structured to satisfy both the supply side objective of liberal education as well as the demand side objective of imparting employable skills. The Department has identified the following specific objectives:

- To give the students a strong grounding in fundamentals.
- To equip them with quantitative skills

- To enhance their ability to analyze real world economic issues.
- To increase their competitive advantage for securing employment
- To alert their societal consciousness and prepare them to be better citizens.
- Inclusion of the latest information in the relevant field of study
- Making the courses job oriented
- Overall personality development of the students

The flexibility to frame the syllabus enables the fulfillment of these criteria. The Department has introduced many application and job oriented papers for the under graduates such as Micro Economics, Macro Economics, Environmental Economics, Corporate Finance, Portfolio Management and Insurance . The economics course under autonomy imparts rigorous training in quantitative tools to the students through the inclusion of papers such as Mathematical Methods, Statistical Methods, and Econometrics for both UG and PG students, spread over all the semesters. The inclusion of these papers has enabled our students to continue their studies further in esteemed research institutions in India such as Madras School of Economics. The highlight of the autonomous course is the inclusion of the project for U G which is optional for the U.G students giving them extra credit points. The U.G Course includes papers that facilitate job opportunities in Industries, Banks and Insurance Companies.

The B A. Economics programme in this college is thus a perfect blend of papers complementing each other to cater to the needs of the students. Part IV - Non Major Elective includes skill based papers such as Indian Constitution and General Knowledge and a paper on Analytical Reasoning (Levels, I, II and III) to give our students good foundation for facing Competitive Examinations like IES, IAS, and Nationalised Banks' recruitment exams (Banking Services Recruitment Board Exam). These papers are designed to suit the requirements of employment market based on feed back from the Placement Cell of the College. Apart from course content, the teaching and evaluation practice gives due credit for class participation and formal presentation

B.A. Economics Shift I

SEM I	Name of the Course	Course Code	Name of the Program	Course outcomes	Year of introduction	End Year
	Micro Economics I	1ME01b	B.A. Economics	Widens fundamental knowledge in economic theories and to make analysis	2011	till date
	Economic Thought	1ME02c	B.A. Economics	Gives a picture on economic thought and ideas of eminent economicists.	2019	continues
	Marketing	1AME	B.A. Economics	Enhances knowledge on Marketing and selling aspects	2019	continues
	Value Education	OVE	B.A. Economics	Inculcates principles of religions and values	2008	till date
SEM II	Micro Economics II	2ME03b	B.A. Economics	Widens fundamental knowledge in economic theories and to make analysis .	2011	till date
	Environmental Economics	2ME04c	B.A. Economics	Creates awareness on environment and its issues and the measures and methods to control pollution and protect environment	2011	till date
	Corporate Finance	2ACF	B.A. Economics	Working out Financial Statements of companies forms skills to get employment in Companies/pursue projects in higher studies	2019	continues
	Environmental Studies (Theory)	OEST	B.A. Economics	Creates awareness on environment and its issues	2001	till date
	Environmental Studies (Project & Viva Voce)	OESPV	B.A. Economics	Creates awareness on environment and its issues, and to pursue research work	2001	till date
SEM III	Indian Economy I	3ME05c	B.A. Economics	Gives exposure on the status of our economy, the policy changes and its impact upon the economy. Widens knowledge to appear for Civil Services Exams, Competitive Exams, SET, UGC - NET Exam.	2019	continues
	Mathematical Methods I	3ME06b	B.A. Economics	Enhances quantitative skills to get admission into advanced centres of learning to pursue higher studies like Applied Economics, Post Graduation in Econometrics, Management Courses	2011	till date

	Statistical Methods I	3ASE1	B.A. Economics	Enhances quantitative skills to get admission into advanced centres of learning to pursue higher studies like Applied Economics, Post Graduation in Econometrics, Management Courses	2011	till date
	Entrepreneurial Development	SED	B.A. Economics	Forms entrepreneurship skill to take up self-employment like running small enterprises in a specialised manner, or doing small businesses by way of conducting exhibitions and putting up stalls in the College Campus	2019	continues
	Analytical Reasoning I	SAR1	B.A. Economics	Forms Quantitative ability, Analytical Skill, Logical Reasoning Skill, and widens knowledge to appear for Civil Services Exams, Competitive Exams	2011	till date
SEM IV	Indian Economy II	4ME07c	B.A. Economics	Gives exposure on the status of our economy, the policy changes and its impact upon the economy. Widens knowledge to appear for Civil Services Exams, Competitive Exams, SET, UGC - NET Exam.	2019	continues
	Mathematical Methods II	4ME08b	B.A. Economics	Enhances quantitative skills to get admission into advanced centres of learning to pursue higher studies like Applied Economics, Post Graduation in Econometrics, Management Courses	2011	till date
	Money and Banking	4ME09c	B.A. Economics	Provides knowledge on money circulation and banking practices. Internship in Banks forms employability skills	2011	till date
	Statistical Methods II	4ASE2	B.A. Economics	Enhances quantitative skills to get admission into advanced centres of learning to pursue higher studies like Applied Economics, Post Graduation in Econometrics, Management Courses	2011	till date
	General Knowledge	OGK	B.A. Economics	Widens knowledge to appear for Civil Services Exams, Competitive Exams, SET, UGC - NET Exam.	1999	till date
	Analytical Reasoning II	SAR2	B.A. Economics	Forms Quantitative ability, Analytical Skill, Logical Reasoning Skill, and widens knowledge to appear for Civil Services Exams, Competitive Exams,	2011	till date
SEM V	Macro Economics I	5ME10c	B.A. Economics	Widens knowledge in economic theories and to make analysis	2011	till date
	Public Finance I	5ME11b	B.A. Economics	Widens knowledge on fiscal system, fiscal policies, budget, tax system.	2011	till date
	International Economics	5ME12b	B.A. Economics	Widens knowledge to appear for Civil Services Exams, Competitive Exams, SET, UGC - NET Exam.	2011	till date

	Managerial Economics	5ME13c	B.A. Economics	Provides knowledge on the application of micro economic theories in managerial practices.	2011	till date
	Econometrics	5ME14b	B.A. Economics	Enhances quantitative skills to get admission into advanced centres of learning to pursue higher studies like Applied Economics, Post Graduation in Econometrics, Management Courses	2011	till date
	Portfolio Management	5EE01a	B.A. Economics	Gives insight into Capital market, Stock Market, Money Market which forms skills to become investors/ to become online-traders	2011	till date
	Analytical Reasoning III	SAR3	B.A. Economics	Forms Quantitative ability, Analytical Skill, Logical Reasoning Skill, and widens knowledge to appear for Civil Services Exams, Competitive Exams,	2011	till date
SEM VI	Macro Economics II	6ME15c	B.A. Economics	Widens knowledge in economic theories and to make analysis	2011	till date
	Public Finance II	6ME16b	B.A. Economics	Widens knowledge on fiscal system, fiscal policies, budget, tax system.	2011	till date
	Development Economics	6ME17b	B.A. Economics	Widens knowledge on application of models for economic growth and development.	2011	till date
	Introduction to Operations Research	6ME18	B.A. Economics	Enhances quantitative skills to get admission into advanced centres of learning to pursue higher studies like Applied Economics, Post Graduation in Econometrics, Management Courses	2011	till date
	General Insurance	6EE02b	B.A. Economics	Forms skills to get employment in Insurance Companies/to register as an Insurance agent.	2011	till date
	Project Work (Optional)	6MEPR	B.A. Economics	Gives insight and exposure to pursue research work.	1999	till date
	Project Viva Voce (Optional)	6MEPV	B.A. Economics	Gives insight and exposure to pursue research work.	1999	till date
	Quality Control Circles (Theory)	OQCC	B.A. Economics	Developes leadership quality and ensures quality in work	2011	till date
	Quality Control Circles (Presentation)	OQCCP	B.A. Economics	Developes leadership quality and ensures quality in work	2011	till date
	Extension Services	EXT	B.A. Economics	Builds up service mindedness and responsibility	2009	till date
Other Courses -U.G.	Name of the Course	Course Code	Name of the Program	Activities with direct bearing on Employability/ Entrepreneurship/ Skill development		

SEM I	Entrepreneurial Development	1AEC1	Allied Paper offered to B.Com and B.Com (B.M.) students by Economics Dept.	Forms entrepreneurship skill to take up self-employment like running small enterprises in a specialised manner, or doing small businesses by way of conducting exhibitions and putting up stalls in the College Campus	2019	continues
